PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience building production-style applications using React JS, Spring Boot, MySQL, and Flutter/Dart. Skilled in designing RESTful APIs, implementing JWT-based authentication, and handling pagination, validation, DTO mapping, and global exception handling. Strong understanding of clean architecture, cross-platform mobile development, and secure full stack development. Actively seeking an entry-level role to contribute to real-world systems and grow as a software engineer.

EXPERIENCE

Java Full Stack Intern | Leometric Technology Pvt Ltd

Jun 2026 – Present

- Developed and maintained backend REST APIs using Java and Spring Boot.
- Designed database tables and optimized queries in MySQL.
- Implemented JWT-based authentication and authorization.
- Currently building the **Health Tracker Application**, a cross-platform mobile app using Flutter and Dart with a Spring Boot backend, enabling users to log health metrics, track progress, and view activity history.
- Collaborated with frontend and backend team members using Git/GitHub.

PROJECTS

Health Tracker Application — 2026 (Ongoing)

Flutter, Dart, Spring Boot, MySQL, REST APIs

- Building a cross-platform mobile health tracking app using Flutter and Dart for Android and iOS.
- Designing REST APIs with Spring Boot for logging health metrics, activity history, and user profiles.
- Integrating the Flutter frontend with backend APIs for real-time data sync and progress tracking.
- Applying MySQL for persistent storage of user health records and activity logs.

Bus Booking System (Full Stack) — 2025

React JS, Spring Boot, MySQL, JWT, REST APIs

- Built a full-stack bus booking application with a React JS frontend and Spring Boot backend.
- Designed REST APIs for bus search, seat selection, and booking management.
- Implemented JWT-based authentication with role-based access for users and admins.
- Built dynamic React JS UI components for bus search, seat layout, and booking history.
- Integrated frontend with backend APIs using Axios, managing application state across multiple views.

FlashRide – Online Cab Booking System

Spring Boot, Spring MVC, Spring Data JPA, MySQL

- Built a full-stack cab booking application using Spring Boot, Spring MVC, JPA, and MySQL.
- Implemented user registration, login, ride booking, fare calculation, and booking history.
- Designed 15+ REST endpoints for ride and booking operations; applied MVC architecture and database relationships for maintainable design.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Dart, SQL

Mobile Development: Flutter, Dart

Frontend Technologies: HTML5, CSS, React JS, Bootstrap

Backend Technologies: Spring, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, JSP, JDBC, REST APIs

Database: MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, Maven, VS Code, Eclipse, Postman, SQL Plus

Concepts: OOP, DSA, SDLC, Agile, Scrum, CRUD Operations

CERTIFICATION

Java Full Stack Development — Skills IT Academy

EDUCATION

Dr D Y Patil School Of MCA — 2024–2026 | Master of Computer Application, CGPA: 8.36

Swami Ramanand Teerth Marathwada University — 2021–2024 | Bachelor of Computer Application, CGPA: 8.86
